

United States Senate

WASHINGTON, DC 20510-4805

May 27, 2022

Dear Chairman Merkley and Ranking Member Murkowski:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2023 Interior, Environment, and Related Agencies appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate

Sincerely,

Shelley Moore Capito
United States Senator

**Capito, Shelley Moore(R-WV) Interior and Environment
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Arthurdale Heritage Inc.	To build a new educational and commercial space for Arthurdale and the surrounding region.	Arthurdale WV	\$2,380
Arthurdale Heritage Inc.	To create the Arthurdale trade school.	Arthurdale WV	\$957
Century Volga Public Service District	To improve the aging water system.	Barbour County WV	\$2,000
Town of Junior	To upgrade existing water distribution system by replacing existing water lines, valves, water meters, and fire hydrants.	Barbour County WV	\$1,896
City of Philippi	To construct a reservoir to hold a 3-month supply of water to act as a backup raw water supply source.	Barbour County WV	\$9,600
Village of Barboursville	To upgrade the current wastewater collection system and reroute flow from current treatment lagoon.	Barboursville WV	\$5,000
Shady Spring PSD	To upgrade the Glen Morgan WWTP and allow for expansion.	Beaver WV	\$2,000
City of Beckley	To allow the Piney Creek WWTP to manage additional inflow and minimize usage of the system's CSO by upgrading and improving the WWTP and Whitestick Lift Station.	Beckley WV	\$4,393
City of Beckley	To reroute sanitary sewers and construct a stormwater collection system.	Beckley WV	\$2,568
City of Belington	To install approximately 23,375 linear feet of gravity collection system, replacing the aging infrastructure.	Belington WV	\$6,216
Berkeley County Public Service Water District	Construct a new water treatment plant to expand water capacity in southern Berkeley County.	Berkeley County WV	\$35,000
Boone County Public Service District	Upgrade an existing wastewater treatment plant.	Boone County WV	\$3,840
Boone County Public Service District	To repair, rehabilitate, and upgrade the Boone County PSD's existing wastewater collection system.	Boone County WV	\$1,480
Boone County Public Service District	Extend sanitary sewer service to up to 37 residences, as well as a school, gas station, state government office, church, and commercial business.	Boone County WV	\$3,650
Town of Burnsville	To extend potable water to the northeastern portion of Braxton County.	Braxton County WV	\$5,360
Brooke County Public Service District	To upgrade existing wastewater treatment plant for required capacity to support economic development efforts at Beech Bottom Industrial Park.	Brooke County WV	\$8,800
Mt. Zion PSD	To make improvements to the Mt. Zion PSD's water system and lower operating costs for the PSD.	Calhoun County WV	\$2,000
Town of Grantsville	To bring the Grantsville Wastewater Treatment Plant into compliance with DEP and EPA clean water standards.	Calhoun County WV	\$3,000
Charles Town Utility Board	To improve the sewer collection system.	Charles Town WV	\$3,116
Sissonville Public Service District	Upgrade and rehabilitate SPSD's existing wastewater treatment plant and collection system.	Charleston WV	\$3,120

Mannington, WV	To make repairs to the existing sanitary system that would remove any storm water and ground water from getting into the sanitary system.	City of Mannington WV	\$390
Clarksburg Water Board	To replace water mains (some containing lead and asbestos), service lines (some lead and galvanized materials), and valves to eliminate risks to public health & existing deficiencies in the distribution system.	Clarksburg WV	\$15,040
Town of Davis	To construct a new, centralized wastewater treatment plant to achieve the major increases in capacity needed to accommodate the projected demand in the area.	Davis WV	\$2,000
Town of West Union	Construct necessary improvements to the water treatment and distribution system to allow for additional water demands requested from the Regional Jail and future demands required for proposed extensions.	Doddridge County WV	\$6,868
Town of West Union	Construct necessary improvements to the wastewater treatment plant and collection system to allow for increased flow demand at the Regional Jail.	Doddridge County WV	\$10,740
Doddridge County Parks	To eliminate the septic tanks and leach fields currently in use by building a sewer line extension from the West Union sewer line.	Doddridge County WV	\$1,588
Doddridge County Public Service District	To extend waterlines to provide potable water to the western section of Doddridge County.	Doddridge County WV	\$4,915
Town of East Bank, West Virginia	Rebuild waste water line for approximately 1000 citizens in East Bank, WV.	East Bank WV	\$5,000
Ice's Run Route 250 Public Service District	Rehabilitate sections of the existing water distribution system and extend the system to allow for the PSD to make two (2) new tie-ins to other potable water sources that can be used as backup in the future.	Fairmont WV	\$4,000
Valley Falls Public Service District	Construction of necessary water system replacements to reduce water loss and loss of service.	Fairmont WV	\$7,167
City of Oak Hill	The proposed project consists of rehabilitating portions of the sewer collection system that have been identified as being in very poor condition or beyond their useful life.	Fayette WV	\$1,000
White Oak Public Service District	The project will remove an unpermitted bypass at the wastewater treatment plant.	Fayette County WV	\$2,000
Town of Meadow Bridge	To rehabilitate 6 existing lift stations in the wastewater collection system.	Fayette County WV	\$835
Town of Meadow Bridge	To Extend Water Line to 145 New Customers	Fayette County WV	\$300
New Haven Public Service District	To extend 2.26 miles of new water main.	Fayette County WV	\$1,000
New Haven Public Service District	To construct a water main extension located on Saturday Road to Lucas Road for 5.49 miles.	Fayette County WV	\$1,000
New Haven Public Service District	To construct a water main extension from the existing water main along White Road.	Fayette County WV	\$1,000
Town of Ansted	Address numerous issues at the wastewater treatment plant to avoid spillage into Mill Creek and ultimately the New River.	Fayette County WV	\$4,400
Town of Ansted	Extend sanitary sewer service to hundreds of customers, including the New River Gorge Visitor Center.	Fayette County WV	\$20,000
Town of Pax	To provide public sewer service to 7 customers, equip the wastewater plant with a telemetry system for all lift stations, and upgrade the ultraviolet disinfection unit at the treatment plant.	Fayette County WV	\$800

Town of Gassaway	To renovate the Gassaway Depot to restore the historical integrity of the building while making improvements for community use.	Gassaway WV	\$150
City of Glenville	Glenville proposes to construct 7,000 feet of storm sewers to direct the runoff to three new outlets to the Little Kanawha River.	Gilmer County WV	\$2,232
Gilmer County Public Service	To provide new and improved safe drinking water service to over 313 customers in Gilmer County.	Gilmer County WV	\$2,815
City of Grafton	To replace the existing underground water storage tank with a new aboveground water storage tank.	Grafton WV	\$2,000
Mountain Top Public Service District	To implement a radio-read water metering system to improve the efficiency of Mountain Top PSD's water infrastructure.	Grant County WV	\$400
City of Lewisburg	To upgrade the Water Treatment Plant, increase storage capacity, relocate the raw water intake upstream of the county landfill, and replace only those water lines necessary for the system to operate properly.	Greenbrier County WV	\$458
Greenbrier Historical Society	To restore the 1834 Library of the Supreme Court of Virginia, located in Lewisburg to as close as feasible to its original configuration.	Greenbrier County WV	\$500
Ohio River Valley Water Sanitation Commission	Install replacement analytical instrumentation at WV ODS drinking water host sites to support SB373 monitoring efforts for VOC's.	Hamilton County WV	\$1,059
Hamlin Public Service District	To improve and extend the wastewater system.	Hamlin WV	\$2,220
Corporation of Harpers Ferry	To replace severely compromised and degraded 60-100-year-old water distribution system with new service lines, valves, water mains and meters.	Harpers Ferry WV	\$7,640
Greater Harrison County Public Service District	To provide public sanitary sewer service to approximately 400 people and the Interstate 79 corridor along exit 115.	Harrison County WV	\$5,000
City of Salem	To increase the capacity of the existing wastewater treatment plant to accept larger amounts of sanitary sewage and to eliminate the Consent Order that the city is under.	Harrison County WV	\$8,320
Clarksburg Sanitary Board	The project will separate stormwater from the City's combined sewer system and make upgrades to the wastewater treatment plant.	Harrison County WV	\$3,000
Town of Anmoore	Replace failing sections of water line to reduce unaccounted for water loss.	Harrison County WV	\$1,000
Summit Park Public Service District	Reduce rain inflow by replacing sections of sewer mains, upgrading manholes and 2 lift stations.	Harrison County WV	\$1,840
Town of Lumberport	To provide potable water to its customer base.	Harrison County WV	\$2,000
Benedum Airport Authority	To provide a sanitary sewer collection system to a new commercial/business development with airport terminal, one hotel, five (5) warehouses and four (4) commercial buildings.	Harrison County WV	\$1,840
City of Hinton	To rehabilitate and renovate the historic New River Grocery Building in the Hinton's Historic District.	Hinton WV	\$250
City of Ripley	To remove sludge within the City's existing sludge lagoons and backfill the lagoons.	Jackson County WV	\$5,000
City of St Albans	Expand water storage capacity by 1,000,000 gallons with a new tank and associated water lines.	Kanawha WV	\$4,341
Elk Valley Public Service District	Eliminate seven impending Elk River embankments failures from resulting in wastewater spills into the river.	Kanawha County WV	\$4,496

West Virginia State University	For rehabilitation and revitalization of historic structures at West Virginia State University.	Kanawha County WV	\$500
West Virginia Department of Agriculture	To identify areas of PFAS contamination, assess existing levels of PFAS in soil and water.	Kanawha County WV	\$329
West Virginia Department of Environmental Protection	To better monitor and identify air pollutants including Ethylene Oxide within the state.	Kanawha County WV	\$2,246
West Virginia Department of Environmental Protection	Identify areas contaminated with PFAS including storm water, soils, fish tissue, and other exposure pathways.	Kanawha County WV	\$600
City of Keyser	Upgrade/replace the aging water plant, upgrade the telemetry at two water storage tanks, replace aging pump at pump station.	Keyser WV	\$8,000
Lewis County Commission	To extend water and sewer service along Corridor H to the Upshur County line to provide additional economic development opportunities in this area.	Lewis County WV	\$12,000
City of Weston	To upgrade the existing wastewater treatment plant in order to better serve current customers and allow for business expansion.	Lewis County WV	\$3,112
Lincoln County Public Service District	To remove and replace approximately 30,000 linear feet of aging water line, replace 25 existing fire hydrants, and rehabilitate two existing water storage tanks.	Lincoln County WV	\$3,500
Town of West Hamlin	This project will refurbish and repaint existing storage tanks extending their lifespan, provide construction of an additional 120,000-gallon storage tank, refurbish the booster pump station, and upgrade the water treatment plant.	Lincoln County WV	\$5,119
City of Logan	To further analyze and establish an alternative water source supply, thus creating the necessary redundancy to mitigate potential system failure.	Logan WV	\$820
Marshall County Public Service District 1	Replacement of old deteriorated and undersized waterlines to provide reliable safe public water to 260 residential customers and 42 commercial customers.	Marshall WV	\$4,040
Marshall County Sewerage District	Extended Sanitary Sewer to 70 customers who are unreliable septic systems and a failing package plant.	Marshall WV	\$3,500
City of McMechen	Construction of a wastewater treatment plant and two pumping stations to serve 731 residents and 30 commercial customers.	Marshall County WV	\$10,688
Marshall County PSD #3	Replacing failing waterline infrastructure and make improvements to the water system operations.	Marshall County WV	\$1,600
City of Cameron	Extend water service to 15 residents who lack a reliable source of clean drinking water, and make necessary improvements to the water treatment and distributions systems.	Marshall County WV	\$2,000
Mason County Public Service District	Provide sanitary sewer service for the Apple Grove, Mercers Bottom, and Ashton areas in southwest Mason County, including the recently announced Nucor Sheet Steel manufacturing facilities.	Mason County WV	\$1,000
City of Point Pleasant	Rehabilitate and upgrade the outdated wastewater treatment plant facilities, including increasing capacity from 400,000gpd to 700,000gpd.	Mason County WV	\$750
City of Point Pleasant	Rehabilitate and upgrade the outdated wastewater treatment plant facilities, including increasing capacity from 400,000gpd to 700,000gpd.	Mason County WV	\$750
City of Piedmont	Connection to City of Keyser water system to allow the existing Piedmont water treatment plant to be decommissioned	Mineral County WV	\$3,493

City of Williamson Board of Parks and Recreation	To conduct preservation activities at the Williamson Historical Field House in Mingo County.	Mingo County WV	\$500
Morgan County Commission	Replacing the existing sewer line with a bigger sewer line to prepare for the growth of Berkeley Springs.	Morgan WV	\$950
Morgantown Utility Board	Upgrade water and sewer mains to serve approximately 200 existing businesses and 200 existing residences.	Morgantown WV	\$10,480
West Virginia University	To address aquatic conservation including impacts of climate change and invasive species on freshwater systems.	Morgantown WV	\$573
West Virginia University	To implement an anaerobic digester to facilitate additional research opportunities.	Morgantown WV	\$1,000
West Virginia University	To monitor and assess forest mass, composition, structure, and health with greater efficiency, accuracy, repeatability, and safety for Carbon Sequestration.	Morgantown WV	\$475
Grave Creek Mound Archaeological Complex	To restoration activities at Grave Creek Mound.	Moundsville WV	\$100
Town of Nutter Fort	Extend sanitary sewer service to approximately 300 residents and to the western side of the Interstate 79 corridor along exit 115.	Nutter Fort WV	\$5,000
Town of Triadelphia	To replace waterlines, valves, fire hydrants and water meters throughout the Town.	Ohio County WV	\$3,436
City of Parkersburg	To set in motion natural ecological processes to establish themselves and thrive, while inhibiting the growth of invasive species along the banks of the Ohio River.	Parkersburg WV	\$250
City of Pennsboro	To eliminate inflow and infiltration from the City's wastewater collection system.	Pennsboro WV	\$4,000
Pleasants County PSD	To provide public water service to approximately 33 homes in the Hebron Area of Pleasants County.	Pleasants County WV	\$1,448
City of Belmont	To provide water system improvements in the City of Belmont that will allow for future growth and eliminate service interruptions.	Pleasants County WV	\$4,000
Town of Marlinton	The proposed improvements will assist the Town in meeting its Plan of Corrective Action to address issues cited by the WV DEP in the Town's Consent Order.	Pocahontas WV	\$3,919
Pocahontas County Public Service District	Extend public drinking water to 59 residences and 2 businesses.	Pocahontas County WV	\$2,000
Pocahontas County Public Service District	The project purpose is to build resiliency & reliability in the water system.	Pocahontas County WV	\$5,000
City of Kingwood Water Board	This project focuses on improving the reliability, safety and security of the water supply for the Camp Dawson Army National Guard facility.	Preston County WV	\$5,000
Preston County Public Service District No. 4	Preston County PSD #4 will drill and develop additional wells for source water to ensure the existing system can adequately supply the needed water for their exiting customers.	Preston County WV	\$623
Town of Newburg	Upgrade Wastewater Treatment Plant and existing lift stations, as well as partial replacement of sanitary sewer collection system.	Preston County WV	\$3,500
City of Kingwood Sewer Board	This project will remove 13 grinder pumps from the system and provide new sewer service to 138 households.	Preston County WV	\$7,283
Town of Terra Alta	To extend waterlines, waterline replacement, water treatment plant upgrades, water storage tank replacement and upgrades, water meter replacement, & purchase of necessary equipment for improvements to the overall water system	Preston County WV	\$5,000

Preston County Public Service District	To upgrade the Hazelton Wastewater Treatment plant to bring it into compliance with WVDEP NPDES discharge limits on copper and zinc.	Preston County WV	\$2,805
Putnam Public Service District	Extend sewage treatment to 236 Putnam County residents.	Putnam County WV	\$5,496
Town of Sophia	The purpose of this project is to construct a new Wastewater Treatment Plant (WWTP) in the Town of Sophia above the 100-year floodplain. Once the new WWTP is constructed, a sewer collection system will be extended to 440 residents in Coal City.	Raleigh WV	\$5,000
County Commission of Raleigh County	To provide 218 customers with wastewater treatment service and eliminate health hazard.	Raleigh County WV	\$1,000
Cool Ridge Flat Top Public Service District	Extend Waterline to residences and upgrade existing infrastructure	Raleigh County WV	\$2,510
County Commission of Raleigh County	To provide continued sewer service to 3,851 customers and eliminate a potential health risks.	Raleigh County WV	\$1,000
Crab Orchard - MacArthur Public Service District	Extend the Crab Orchard - MacArthur sewer collection system to 375 unserved customers in the Harper and Eccles communities in Raleigh County, West Virginia.	Raleigh County WV	\$1,997
Crab Orchard - MacArthur Public Service District	Construct a Wastewater Treatment Plant that will serve 135 existing customers and 265 new customers - 400 customers served.	Raleigh County WV	\$3,598
Crab Orchard - MacArthur Public Service District	Develop a wastewater collection and treatment system for 150 customers who currently "straight-pipe" their sewage directly into public streams.	Raleigh County WV	\$3,589
Norton Harding Jimtown Public Service District	Install a new water treatment plant to serve customers in Randolph County.	Randolph County WV	\$2,500
City of Ravenswood	To eliminate the outdated sewer lagoons and extend services to 200 residential users.	Ravenswood WV	\$3,500
City of Richwood	To replace existing wastewater treatment plant no longer able to properly treat sewage due to its age, as well as construct the new plant outside of the FEMA floodway.	Richwood WV	\$5,000
City of Richwood	To conduct various system-wide existing water distribution, storage and treatment improvements.	Richwood WV	\$5,040
City of Pemmsboro	Replace old and failing waterlines in the City of Pennsboro.	Ritchie County WV	\$4,000
Hughes River Water Board	To upgrade infrastructure at the Hughes River Water Board.	Ritchie County WV	\$2,000
Hughes River Water Board	To extend water line to 60 residences.	Ritchie County WV	\$2,200
Walton Public Sewer District	Establish a sewer system in Walton, WV.	Roane County WV	\$3,000
City of Salem	To replace dilapidated main waterline, replace lead and galvanized steel water service lines, and water meter replacement.	Salem WV	\$2,400
Shady Spring PSD, Grandview Area Wastewater	This project will extend a sewer collection system along Grandview Road towards New River National Park.	Shady Spring PSD WV	\$4,020
City of Spencer	The project purpose is to construct improvements to the existing City of Spencer public sanitary sewer system.	Spencer WV	\$2,456
Jumping Branch - Nimitz Public Service District	To address water quantity and water quality issues such as high iron, sulfur, and fecal coliform contaminates in wells.	Summers County WV	\$1,517

Jumping Branch - Nimitz Public Service District	To provide approximately eighty-seven (87) new customers along Madams Creek Road with public water service who are presently impacted by poor water quality and quantity in private wells.	Summers County WV	\$300
National Park Service	To utilize the Land and Water Conservation Fund to acquire 91 acres for inclusion in the Gauley River National Recreation Area.	Summersville WV	\$375
Gauley River Public Service District	Upgrade of the existing system and the replacement of aging infrastructure	Swiss WV	\$3,197
Town of Flemington	To reduce inflow and infiltration of stormwater and groundwater into the sanitary sewer system.	Taylor County WV	\$500
Alpine Heritage Preservation	To rehabilitate and revitalize the Cottrill Building in Thomas, West Virginia.	Thomas WV	\$500
City of Thomas	Rehabilitate the existing system to allow Thomas to once again meet their discharge limits and be prepared for the future growth anticipated with the completion of Corridor H.	Tucker Co WV	\$4,800
Fish and Wildlife Service	To utilize the Land and Water Conservation Fund to acquire lands for inclusion in the Canaan Valley National Wildlife Refuge.	Tucker County WV	\$5,000
City of Thomas	Rehabilitate the existing potable water system to to benefit existing customers and to be prepared for growth within the area.	Tucker County WV	\$12,240
Hamrick Public Service District	To replace water line crossing a river, install booster station, and include backup generators in the system.	Tucker County WV	\$1,000
City of Sistersville	Extend Sewer Service to 42 households around Sistersville Elementary.	Tyler County WV	\$1,520
Town of Union	Extend waterlines to 111 residences	Union WV	\$813
Town of Union	Extend waterline to 18 new customers and develop an additional water source	Union WV	\$4,368
Town of Union	Construct a new wastewater facility	Union WV	\$4,360
Town of Union	To replace the existing water treatment plant.	Union WV	\$4,012
Village of Valley Grove	Improve the existing water infrastructure to supply safe and reliable potable water to current and future customers.	Valley Grove WV	\$6,000
Town of Wayne	To repair and upgrade the aging wastewater system.	Wayne County WV	\$13,200
Cowen Public Service District	Extend public potable water service to approximately 60 residential and commercial customers along Route 82, Route 44 (Barnett Run Road), and Route 32 (Bragg Run Road).	Webster County WV	\$3,500
Webster County Economic Development Authority	Extend water service to approximately 60 residents.	Webster County WV	\$3,172
City of Weirton	This project will increase the capacity of the wastewater plant to accommodate increasing economic development opportunities.	Weirton WV	\$17,035
Lubeck Public Service District	Extend water service to 52 potential customers.	Wesley WV	\$2,280
WV Department of Arts, Culture and History	To conduct preservation activities on the exterior of WV Independence Hall.	Wheeling WV	\$500
City of Williamson	To provide critical upgrades to the existing, aged water distribution, treatment and storage systems.	Williamson WV	\$6,000

Claywood Park Public Service District	Replace failing old lines and install two new important highway crossings under US Rt. 50 to avoid frequent breaks and service disruptions to a wide area.	Wood County WV	\$2,100
Wyoming County Commission	To provide public water service to approximately 215 new customers, a Wildlife Management Area, and a school district.	Wyoming County WV	\$450
Town of Pineville	To provide water service to approximately 254 customers and a primary school.	Wyoming County WV	\$1,912
Ravencliffe McGraws Saulsville Public Service Dist	To replace the replace the filters, pumps, controls, plant piping and valves as well as the electrical system of McGraws water treatment plant.	Wyoming County WV	\$800
Ravencliffe McGraws Saulsville Public Service Dist	To extend Waterline to 53 residential customers (approximately 140 residents) and to create a tie in with the Pineville Water System.	Wyoming County WV	\$2,890
Town of Pineville	To provide reliable water service and address water loss and other deficiencies.	Wyoming County WV	\$1,500
